

## Research participants needed!

### What is this project about?

This project will improve the hospital experience for **people with Down syndrome**.

We want to understand if using a phone to record meetings with a health professional could be helpful.

### What is involved?

We are inviting **people with Down syndrome** and their family, friends, carers and paid service workers to talk to us.

## What will we talk about?

We will talk about **hospital meetings** and **recordings**.

Example questions:

- What is important to you when you meet a health professional in hospital?
- Have you used your phone to record a meeting with a health professional in hospital?

## Important information

- You must be over 18 years old.
- We have ways to support you in the interview.
- We can meet you at a time and place which is easy for you.
- We can meet online.
- We will give you a gift card of \$30 to say thank you (paid support workers will not be given a gift card).
